Yes. This is a prime focus and will be on Charles' COMP plan in 2020.

Booking rates have improved significantly in the last few weeks. We also have almost sold out of one size of SealWorks.

The kit inventory is already falling but gets offset by SealWorks, some final receipts of PWPC items from Seepex and large SL item receipts from Peopleflo.

Trey  
Based on current demand and future outlook we need to start bring south belts inventory down.  
Thx  
David
